Naslov projekta

**ABANDONED RAILROAD IN EASTERN ZAGREB/RECREATION OF IDENTITY OF FORMER URBAN CENTRES**

Opišite, katero problematiko želite s projektom nasloviti.

The project idea is to recreate the identity of space and the notion of the neighbourhood, a kind of „local pride“ in the lesser known parts of the city, and to make these city parts visible to the local citizens, citizens of Zagreb and visitors. Recreating local identity also promotes sustainable development by using existing buildings and infrastructure. The idea is depicted with examples of abandoned narrow gauge local railroad.
